

# S 19 WP

HIGH-POWER WEATHERPROOF SUBWOOFER

## Description

S 19 WP is a high-power 19" cone subwoofer suitable for high-powered outdoor applications. The bass-reflex design ensures an efficient acoustic response down to 30 Hz. The high-quality plywood cabinet is finished with a black, heavy-duty polyurea coating and protected by a powder-coated metal grille. An M20 pole mount adapter is provided on top of the cabinet, with handles on both sides. The enclosure can be ground-stacked and cardioid-arrayable for improved rear rejection. For enhanced weather resistance, the WP model features an acoustically transparent, water-repellent fabric discreetly embedded within the grille assembly and IP67 Amphenol Ecomate power connectors.
