

# GTX 10i TWO-WAY LINE ARRAY MODULE

#### Description

The GTX 10 Installation Series is a two-way line array system suitable for medium to large-scale, high-demanding, install sound applications, both indoors and outdoors. Equipped with three best-in-class transducers, it offers excellent reproduction quality and optimized directivity in three coverage options enabling precise customization for any project. The integrated rigging hardware allows the system engineer to create arrays with 0° to 10° angles between modules, with 1° steps. Up to 16 modules can be suspended on a single fly-bar. Designed to operate with XPS 16K four-channel DSP amplifiers, each of which is able to manage up to 6 modules.

#### **Features**

- > 143 dB max SPL
- > 4" neo compression driver
- > 2 x 10" neo woofers. 3" v.c.
- > 110° x 15° 4PATH waveguide
- > Designed to operate with XPS 16K amplifier (6 modules for each unit)
- > Durable and lightweight cabinet construction, polyurea coating
- > Heavy duty, powder coated, custom perforated front grille
- > IN / OUT screw terminal connectors, up to AWG 9 cable
